

SprintRetrospectiveMeeting

Date: 22 Septemeber

Time:20:00

[09/22, 21:29] Tebogo: He said try again when it was failing at first then eventually it worked

[09/22, 21:29] Tebogo: That's enough for documentation neh ?

[09/22, 21:29] Kaone: Ohh

[09/22, 21:29] Tebogo: Yea hey👍

[09/22, 21:29] Sikhanyiso: I can check this out but when is the next sprint?

[09/22, 21:29] Tebogo: Yah.. we don't talk about what to do next here ?

[09/22, 21:29] J Donald y: I think we need to have a sprint planning meeting

[09/22, 21:29] Tebogo: The week of the 28th

[09/22, 21:29] Mongezi: What ? 🤔🤔🤔🤔🤔🤔

[09/22, 21:29] Mongezi: Ah so ten days👍

[09/22, 21:29] Mongezi: Bro 🤔🤔

[09/22, 21:29] Donald: Period

[09/22, 21:29] Donald: Tutor consultation

[09/22, 21:29] MJ: Ayi👍

[09/22, 21:29] Sikhanyiso: What's that for

[09/22, 21:29] Sikhanyiso: Which means we have to set a meeting with Rylan. I think he might give us some extra work

[09/22, 21:29] Kaone: Rylan needs to clarify

[09/22, 21:29] Mongezi: Eish yeah but it says nothing about sprint👍

[09/22, 21:29] Dons: Ya

[09/22, 21:29] Sikhanyiso: May he will give constructive feedback

Or you can ask all your questions

[09/22, 21:29] MJ: In the meantime we should polish our work

[09/22, 21:29] Kaone: Before calling Rylan

[09/22, 21:29] MJ: Yes

[09/22, 21:29] Dons: I guess we done neh?

[09/22, 21:31] Mongezi: So what do we call what we gonna have with Rylan. Isn't that Sprint retrospective meeting?

[09/22, 21:31] Mj: It is

[09/22, 21:31] Sikhanyiso: aint there suppose to be 3 types of meetings, according to dude.. the one with rylan a retrospective with the product owner our own meeting where we talk about what we was able to accomplish from

[09/22, 21:31] Kaone: why, according their rubric they still want 5 new user stories

[09/22, 21:31] Dons: I think Rylan will lead us on that, but just to be safe if he won't , let's have our own sprint planning meeting this weekend and come up with our own user stories... We just continue with our stuff and go there as we're done who's with me?

[09/22, 21:31] Mongezi: How about adding profession in user profile and having a page where users can search based on profession. Like if I am good at COMS i can put that as my profession in my profile

[09/22, 21:31] Mj: That's also nice

[09/22, 21:31] Dons: Then other users can search me and chat with me

[09/22, 21:31] Mongezi:

[09/22, 21:31] Jy: Yeah that's cool

[09/22, 21:31] Dons: Which means we have

1. Seeing recent messages
2. Able to delete message
3. Able to delete account
4. Editing personal details
5. Archiving Messages
6. Searching for a convo/contact

7. And the one a mentioned

I guess we can pick any we want then see if we can get to accomplish any, if one struggles, you can move to something else from the list above.

[09/22, 21:31] Mongezi: It's cool neh?

[09/22, 21:31] Dons: Cool with me ?????

[09/22, 21:31] Mj: I*

[09/22, 21:31] Jy: Cool??

[09/22, 21:31] Mongezi: how did you go with a profile picture

[09/22, 21:33] Dons: Oh ya i forgot about it.????

I stopped at image preview. There's still php and scripting left. We can add that too in the list

[09/22, 21:33] Jy: It's cool so how many do we have to pick

[09/22, 21:33] Mj: I suppose we have to be very rigid for the upcoming Sprint

Alot is riding on that

And testing will need considerable amount of work

[09/22, 21:33] Mongezi: uhm if we can pull 6 or 7 that would do us some good if we want that high mark

[09/22, 21:33] Jy: O yah eish

[09/22, 21:33] Dons: Including diagrams of the complete system to that date done to a nuance.

[09/22, 21:33] Jy: When should we have that meeting with Rylan ?

[09/22, 21:33] Mongezi: I think it's on the 29th

[09/22, 21:33] Dons: But ain't sure.please verify

[09/22, 21:33] Mj: Awe

[09/22, 21:33] Mongezi: Oh I see

[09/22, 21:33] Jy: If no one has picked 7. I'll be doing it.

To make it much easier neh, for a user story one can create all diagrams related to that user story they'll be doing. We'll be killing two birds with one stone???

[09/22, 21:33] Mongezi: I'll be doing 4

[09/22, 21:33] Mj: Nice idea and testing also

[09/22, 21:33] Jy: I can tackle 3

[09/22, 21:33] Mongezi: Hopefully it can provide valuable insight so we can tackle issues of the past efficiently and in numbers.

[09/22, 21:33] Mj: I second that

[09/22, 21:33] Dons Of course you are stuck you can still communicate with us

[09/22, 21:33] Mongezi: Actually I'll do 2 and 3

[09/22, 21:33] Mj: For diagrams do we make ones for a particular user story or we represent the whole system

[09/22, 21:33] Jy: By diagrams i was only referring to diagrams which are only specific for that particular user story, like activity diagrams

[09/22, 21:33] Mongezi: Co ask

[09/22, 21:33] Mj: Daily scrum

I set up the html and css for the user story i am about to do. I will start tomorrow

[09/22, 21:33] Jy: Daily scrum (21 Sep)

I didn't do anything

[09/22, 21:33] Mongezi: Sure I'll do 5 and 6 I guess

[09/22, 21:33] Mj: Daily Scrum (September 21)

I didn't do anything

[09/22, 21:33] Mongezi: Nah, let everyone work on them user stories will figure out a way to integrate

[09/22, 21:33] Mj: Well be counting on you

[09/22, 21:33] Koane: Eish guus . I lost my chats from 20th up until tonight. Someone please copy everything document it using docx I'll sort it out nicely..just copy and paste
