

Sprint 4 Retrospective

Date: 5th October

Attendance: Rylan, Donald, Mongezi and Tebogo

- We discussed with Rylan and he said there was no need for us to have wiki on both Github and Taiga
- We discussed about the bug we had on profile that does not delete the profile
- We discussed about the need to differentiate between sender and receiver in message since they look similar and hard to differentiate
- We discussed about tutor functionality
 - Only tutors should be the ones commenting answers
 - Only tutors should be able to assist those who asked questions
- We discussed about options on whether to extract transcript marks from database image to verify on being a tutor or not
- There was no need for other user stories, we only have to present everything altogether and polish up
