

Daily Scrums Sprint 4

Sikhanyiso- Sikhanyiso Dladla

Mongezi - Mongezi Dlamini

Kaone- Senoelo Kaone

MJ - Tebogo Mojela

Dons - Donald Mbara

21 Sept

[09/21, 09:20] Dons: That the bug i talked about @^[FSI]MJ^[PDI]

[09/21, 09:21] Dons: This

[09/21, 09:22] Dons: I'll sort it

[09/21, 09:22] MJ: Ohh okay I was sleepy af I didn't get that 🤔🤔🤔

[09/21, 13:37] MJ: Anybody figured out how to put stuff to the right of the table ?

[09/21, 13:45] Dons: Oh ya. Noted

[09/21, 13:45] Dons: Like another column?

[09/21, 13:46] MJ: Not quite, but like how you would put messages functionality on the right of the table

[09/21, 13:48] Dons: You should use a div then under css you can float:right; i think

[09/21, 13:48] MJ: I tried, but maybe I'm not using it right, lemme look into it some more

[09/21, 14:44] Dons: Try using % instead of px.. although i am also struggling wiith that🤔 [21/08,

14:48] MJ: Oh awe 🤔🤔

22 Sept

[09/21, 21:00] Dons: Daily scrum

I set up the html and css for the user story i am about to do. I will start tomorrow

[09/22, 06:33] MJ: Daily scrum (21 Sep)

I didn't do anything

[09/22, 06:45] MJ: Sure I'll do 5 and 6 I guess

[09/22, 11:33] Mongezi: Daily Scrum (September 21)

I didn't do anything

[09/22, 13:34] Kaone: Nah, let everyone work on them user stories will figure out a way to integrate

[09/22, 21:33] Sikhanyiso: Well be counting on you??

[09/22, 15:25] Dons: We can still use phpMyadmin to use it locally using same database. But for the website we host it using infinity free, it's still the same database???. we just important the database and export it if there are some changes in any of them to make them remain the same

23 Sept

[09/23, 19:28] Dons: Would it be possible for you to do a chat next to list of names. I feel like there's alot of space left by the side. If i centre it there's still alot of spaces left either sides

[09/23, 19:31] MJ: 🤔I like this idea ?

[09/23, 19:33] Dons: Me too, like how whatsapp web looks like

[09/23, 19:33] MJ: Ya because I also put the list in the middle and it looked a bit off

[09/23, 19:48] Dons: I'll try doing something else since I'm done with this. I'll try helping Mongezi/Sikhanyiso with the chat messages..or focus on the diagrams

[09/23, 19:49] MJ: Yah and I'll chow the show events/appointment and then add event/appointment after

[09/23, 19:49] MJ: I feel like it's a complex task ?

[16/08,19:50] Dons: Lemme do it using the same approach i did with Emmanuel wirh the app. It's only the html part we should worry about for now

[09/23,19:51] MJ: Alright ??

[09/23,, 19:52] Dons: 🦋🦋... hopefully during the weekend we'll deal with the diagrams and finish them up

24 Sept

[09/24, 19:06] Dons: Yes.. I'll send my daily scrum before 23:00

[[09/24, 19:23] MJ: Daily scrum I didn't do anything today

[[09/24, 19:59] Mongezi: Daily Scrum I also didn't do anything

[[09/24, 21:24] Kaone: Daily scrum I did nothing.

[[09/24, 22:45] Dons: Daily scrum I did an html part of listing users on a scrollable list.

I will do the fetching part tomorrow

25 Sept

[09/25, 22:06] Dons: Daily scrum. I can able to fetch all users and display them in a list.

Who's doing the chatting functionality so that we can combine/link ?

[09/25, 22:09] MJ: Daily scrum

Worked on showing events/time slots for appointments... will complete tomorrow

@Dons[POI] will also need that list, a copy of it of course that leads to the users' calendar events

[09/25, 22:38] Kaone: Daily scrum didn't do anything practical

26 Sept

[09/26, 05:14] Mongezi: I'm doing it, sorry i fell asleep yesterday

[09/26, 05:16] Mongezi: Daily Scrum

I didn't add much but today i'm working on writing the function that displays the messages

[09/26, 11:17] MJ: What are those diagrams we didn't have in our last sprint ? 🤔🤔

[09/26, 11:18] MJ: No problem🤔🤔

[09/26, 21:33] Dons: If no one has picked 7. I'll be doing it.

To make it much easier neh, for a user story one can create all diagrams related to that user story they'll be doing. We'll be killing two birds with one stone🤔🤔🤔

[09/26, 21:35] MJ: I'll be doing 4

[09/26, 21:38] Sikhanyiso: Nice idea and testing also

[09/26, 21:43] Kaone: I can tackle 3

[09/26, 21:43] Sikhanyiso: Hopefully it can provide valuable insight so we can tackle issues of the past efficiently and in numbers.

[09/26, 21:53] Mongezi: I second that🤔

[09/26, 21:54] MJ: Of course you are stuck you can still communicate with us

[09/26, 21:55] Dons: Actually I'll do 2 and 3

[09/26, 21:57] Sikhanyiso: For diagrams do we make ones for a particular user story or we represent the whole system

27 Sept

[09/27, 23:02] Dons: Daily scrum.I linked the post feed that Sikhanyiso did with the respective courses.(but there are some minor bugs with styling)

I also tried modifying the view user list with some styling

[09/26, 23:34] Sikhanyiso: Daily scrum I did nothing today

[09/26, 23:41] Mongezi: Daily Scrum Couldn't get much done because of loadshedding but i'm doing it right now
