

Sprint Retrospective Meeting on 05/10/2020 14:07

Members Present :

Tebogo Mojela

Donald Mbara

Mongezi Dlamini

Rylan Perumal (Product Owner)

Sikhanyiso Dlodlo and Kaone Senoelo had connection problems due to the weather and as such could not attend the meeting.

Agenda:

To discuss anything the owner (Mr. Rylan Perumal) wants us to improve on. The following was agreed upon :

- i) There is no need to have the same wiki on Taiga and on Github.
- ii) In our chatting functionality we should display the time the message was sent and the name of the user.
- iii) The distinguishing between tutor and user is not actually important because they essentially do the same thing in the app/website but Mr. Perumal indicated that the decision is up to us.
- iv) Checking the transcript for marks can be done in two ways; either we can manually do it ourselves after the user has uploaded their transcript OR we can extract the marks from the transcript and do it automatically.

The Meeting was the concluded around 14:20.
